

**Pumpcoat** is pleased to be able to offer a new service to its Customers

Customers converting to dry-pit **submersibles**?

Talk to them about Retro-fit Conversions -  
WE HAVE A BETTER SOLUTION...

## Direct "DROP-IN" Replacements

**We can convert conventional dry-pit pumps to dry-pit submersibles:**

- **NO piping changes**
- **NO base or foundation modifications**
- **Rotating assembly only OR complete retrofit...your choice**
- **Simple, LOW COST installation**
- **Eliminate flexible drive shafts**
- **Full protection against station flooding**
- **Impellers, volutes, suction covers, suction elbows and bases to match ALL major brands**

## High Efficiency Motors

- **Designed specifically for continuous operation under water**
- **Self-contained internal Closed-Loop cooling**
- **NO external cooling medium required**
- **NO recirculation of sewage through a motor cooling jacket**
- **NO flushing or jacket cleaning required**
- **Motors manufactured by market leading submersible pump/motor manufacturer**
- **Moisture detection control/alarm panel included as standard**
